

REFERENCE DESIGNS

Flexible AV solutions for larger spaces

Get exceptional audio and video coverage in larger meeting rooms and classrooms with full-room microphone pickup and plug and play simplicity. Explore your options.

Divisible rooms

Switch between one and two spaces without compromising AV performance or ease of use.

Page 3

Large meeting rooms

Get pro AV performance without extra complexity in rooms up to 30' x 30' (9.1 x 9.1 m).

Page 7

Extra-large boardrooms

Make automated camera switching incredibly easy in rooms up to 35' x 55' (10.7 x 16.8 m).

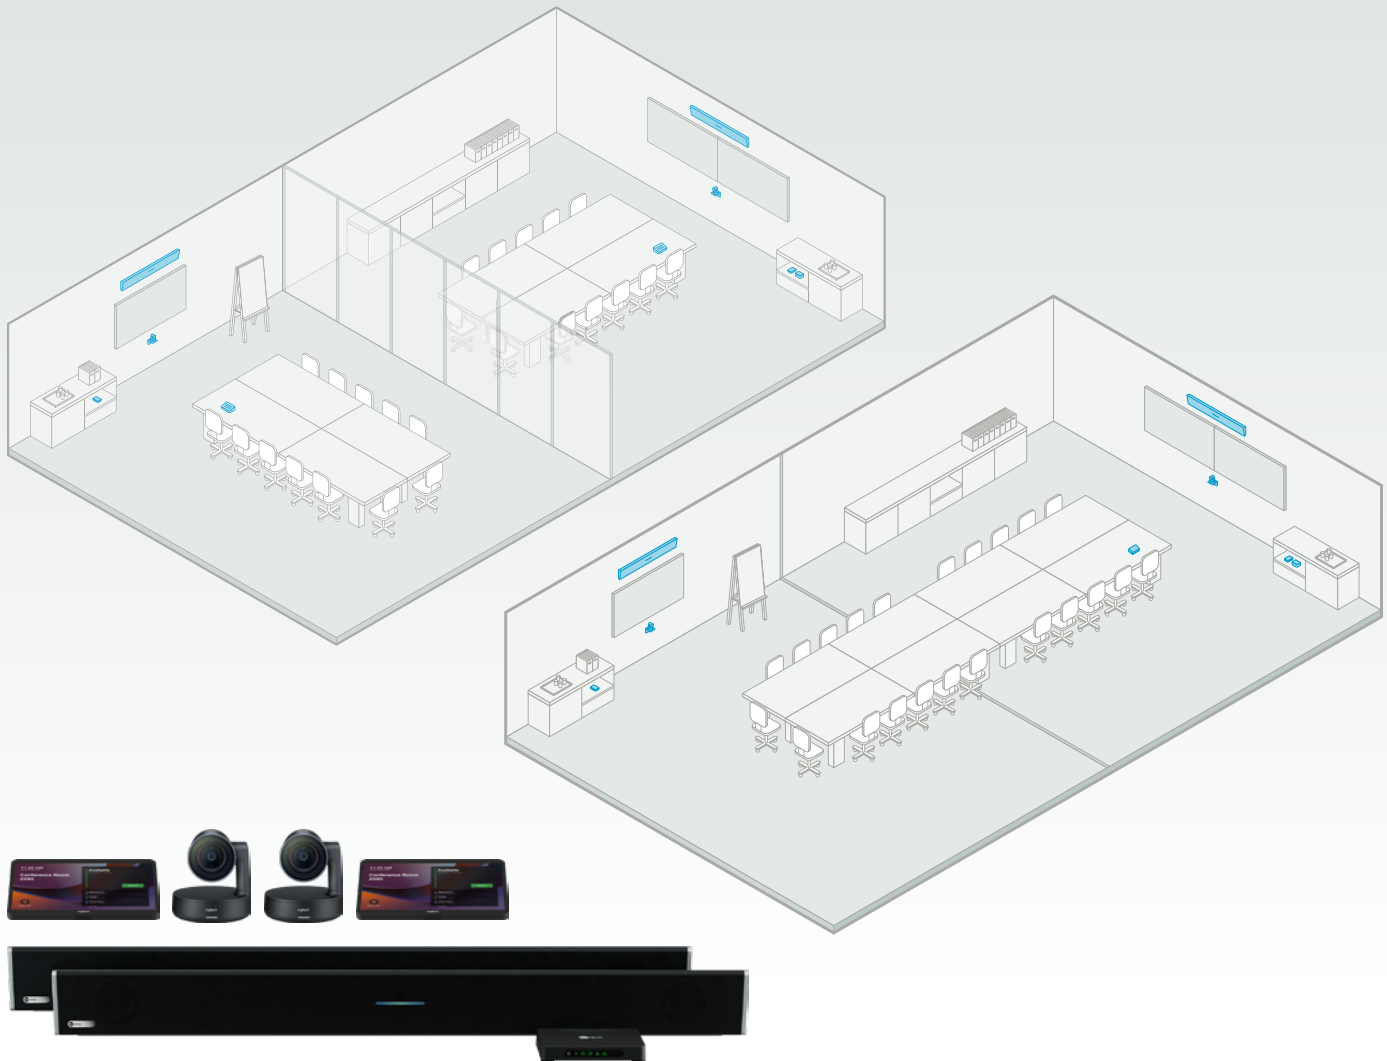

Page 10

Standard classrooms

Engage students and support instructors in classrooms up to 30' x 30' (9.1 x 9.1 m).

Page 13

Divisible rooms

Get exceptional audio and video coverage in divisible rooms up to 35' x 55' (10.7 x 16.8 m) with plug and play solutions built for flexibility. Nureva and Logitech combine to ensure remote participants see and hear everything, no matter how the space is being used. A single Ethernet switch makes it quick and easy to divide the room and then restore it.

Solution components

Two Nureva® HDL310 audio conferencing systems

- Microphone and speaker bar providing full-room pickup with 8,192 virtual mics, thanks to next-gen Microphone Mist™ technology
- Connect module with advanced processing power and pro AV features (no DSP required)
- Easy wall-mounted installation in under 30 minutes with no specialized skills or tools
- Includes Nureva Console, our device management platform that enables device monitoring, management and more
- Available in black (HDL310-B) or white (HDL310-W)
- 2-year warranty (additional 3 years available)

Divisible room setups

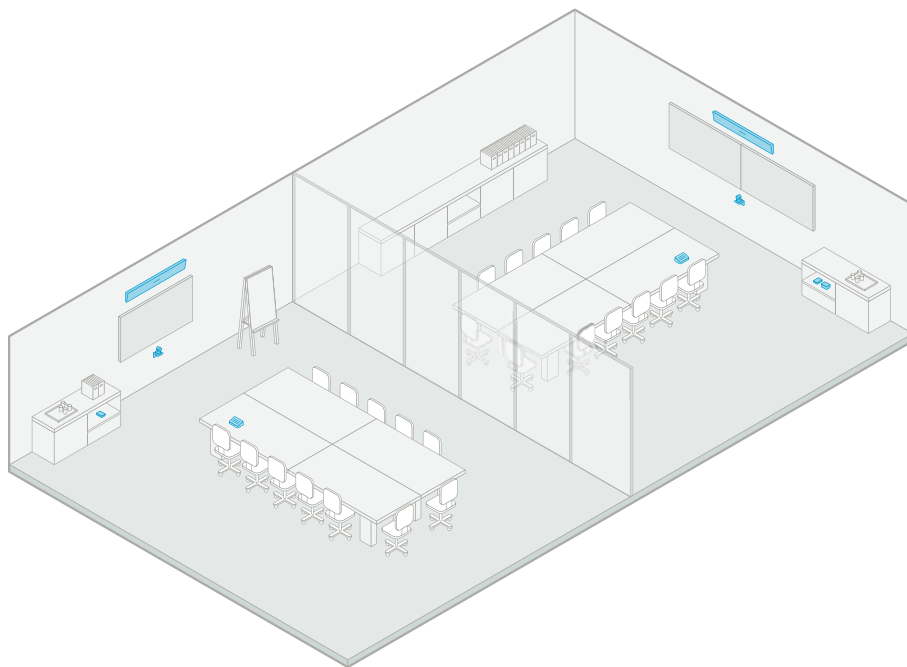

Undivided room

The two HDL310 microphone and speaker bars work together as a single system, providing audio coverage for up to 35' x 55' (10.7 x 16.8 m).

Ethernet switch

Divided room

The two HDL310 systems work independently of each other when the room is divided, providing audio coverage for two separate spaces.

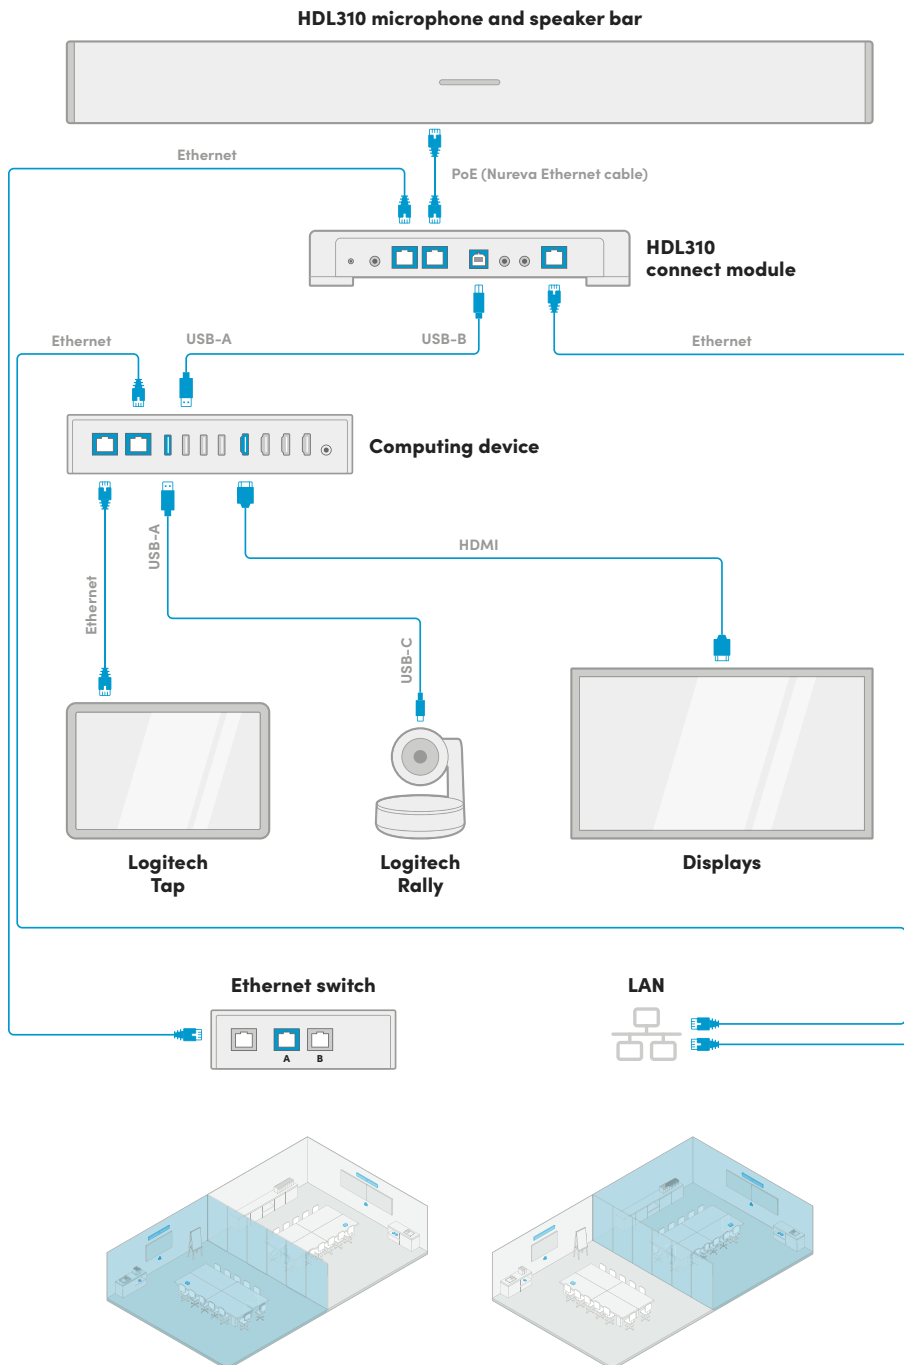

Ethernet switch

Plug and play simplicity

Components for each side of the room

Each side of your divisible room will have the configuration shown below. One Ethernet switch makes it easy to change between the undivided and divided room setups.

Extra-large boardrooms

Get exceptional audio and video coverage in boardrooms up to 35' x 55' (10.7 x 16.8 m) without the complexity of a traditional pro AV system. Thanks to Nureva's sound location data for automated camera switching and Logitech's premium PTZ cameras with Ultra HD imaging, remote participants see everything. And true full-room microphone pickup means they hear everything just as clearly.

Solution components

Nureva® HDL410 audio conferencing system

- Two microphone and speaker bars providing full-room pickup with 16,384 virtual mics
- Next-gen Microphone Mist™ technology producing sound location data for simplified automated camera switching
- Connect module with advanced processing power and pro AV features (no DSP required)
- Easy wall-mounted installation in under 60 minutes with no specialized skills or tools
- Includes Nureva Console, our device management platform that enables the setting of camera zones, monitoring of devices and more
- Available in black (HDL410-B) or white (HDL410-W)
- 2-year warranty (additional 3 years available)
