SONY

Automated camera switching

Expand the capabilities of your trusted Sony cameras while adding true full-room microphone pickup in spaces up to 35' x 55' (10.7 x 16.8 m). Explore your options.

Boardrooms

Engage all remote participants in key conversations with easy AV solutions.

Page 3

Flex spaces

Choose AV solutions designed to work even when spaces are frequently reconfigured.

Page 6

Standard classrooms

Ensure remote students can fully participate in class with hassle-free AV solutions.

Page 9

Tiered classrooms

Give instructors the confidence that remote students can see and hear clearly.

Page 12

Automated camera switching for boardrooms

Get advanced audio and video conferencing in boardrooms up to 35' x 55' (10.7 x 16.8 m). Thanks to Nureva's sound location data for automated camera switching and Sony's built-in AI analytics, remote participants will always see the speaker clearly. Combined with true full-room microphone pickup, this joint solution makes it easy to engage everyone in key conversations and decision-making.

Solution components

Nureva® HDL410 audio conferencing system

- Two microphone and speaker bars providing full-room pickup with 16,384 virtual mics
- Next-gen Microphone Mist™ technology producing sound location data for simplified automated camera switching
- Connect module with advanced processing power and pro AV features (no DSP required)
- Easy wall-mounted installation in under 60 minutes with no specialized skills or tools
- Includes Nureva Console, our device management platform that enables the setting of camera zones, monitoring of devices and more
- Available in black (HDL410-B) or white (HDL410-W)
- 2-year warranty (additional 3 years available)
