

CV30 camera

The CV30 camera sets the stage for a natural videoconferencing experience in meeting rooms and classrooms. Along with performance rivaling that of more expensive competitors, it comes with everything you need for easy installation and use — an extended USB cable, a powered USB hub, a wall-mount bracket and a remote.

Auto tracking and presets

The CV30 provides reliable and stable tracking and you can configure it to track individuals or groups of people. The advanced auto-tracking algorithm is smooth and responsive, following those presenting even when they're facing away from the camera to write on a board or display. In addition, you can choose between three camera presets or use the remote to manually pan, tilt and zoom up to 8x.

4K sensor and 84-degree field of view

Remote participants receive a great visual experience, thanks to the CV30 camera's 4K sensor. The camera also offers an 84-degree horizontal field of view to cover the front of a meeting room or classroom or the entirety of a small space.

Simple installation options

Enjoy having the flexibility of installing the CV30 camera exactly where it's needed. Place it on any wall using the included wall-mount bracket or fix it on top of a display or tripod. When paired with an HDL200 audio system, you can easily attach the camera to the microphone and speaker bar using an optional magnetic mount, creating an all-in-one system.

Tools to manage at scale

The CV30 camera and all your Nureva® devices can be managed from anywhere with Nureva Console — our secure cloud-based platform included with each system. Use it to remotely install firmware updates, check device status or spot disconnected devices and other issues.

Included accessories

- **Extended 33' (10 m) USB cable** — Position the camera in the precise location you desire, with no need to source other cables.
- **Powered USB hub** — Easily connect all your USB devices, including multiple CV30 cameras. A hybrid meeting or class can be started by simply plugging one cable from the hub into a laptop.
- **Wall-mount bracket** — Mount the camera on any wall of a meeting room or classroom, reducing clutter.
- **Remote** — Control both the CV30 camera and a Nureva audio system with one remote.

CV30 camera kit

Camera kit components

Camera

Supports 4K Ultra HD (up to 4K @ 30 FPS/25 FPS) plus 1080p and 720p

ePTZ with up to 8X zoom

Supports a wide dynamic range that can handle various lighting environments

84° FOV lens with autofocus

Super-high signal-to-noise ratio with advanced 2D and 3D image noise reduction

3 preset camera views

3 tracking modes

Powered USB hub

USB 3.0 connection, power supply (5 V, 2 A), video and audio

4 USB ports to support multiple CV30 cameras, a Nureva audio system and other computer accessories

Adjustable mounting base

Variable adjustment with 1/4"-20 threaded insert

Included wall-mount bracket, powder-coated aluminum

Interoperability

Plug and play compatibility with UC&C platforms including Microsoft® Teams, Zoom, Google Meet™, GoTo Meeting, Cisco Webex® and more

Easy integration with third-party solutions such as Barco ClickShare, INOGENI® SHARE2U and INOGENI CAM230

Operating

System requirements

Windows® 10 or higher

macOS® 10.14 or higher

Certifications and compatibility

Electromagnetic

FCC Part 15, Class A; ICES-003, Class A; CISPR 32 (EN 55032), Class A; CISPR 35 (EN 55035)

Safety

UL 62368; CAN/CSA-C22.2 NO.62368; IEC/EN 62368; UL 60950; CAN/CSA-C22.2 NO.60950; IEC/EN 60950

Compliance

RoHS, REACH, POPs (Persistent Organic Pollutants), WEEE, California Proposition 65, EPA (TSCA — Toxic Substances Control Act) Restrictions
