

HDL audio series for higher education

Choose the radically easy large-room audio conferencing option that gives you pro AV performance without a complex setup. You get incredible mic pickup, versatile camera integrations and powerful voice amplification. Plus, installation and management are simple, so IT won't feel the strain.

HyFlex classes

- Remote students feel engaged
- Instructors can teach naturally
- Installation is simple and scalable

Hybrid meetings

- Collaboration is smooth and easy
- Ideal for admin and faculty meetings
- Works with AI agents

Lecture capture

- Recordings are clear and crisp
- Ideal for asynchronous learning
- Works with leading platforms

AV/IT teams love Nureva

- Two or three components deliver pro AV performance — even in large and extra-large rooms.
- Wall-mounted installation takes as little as 30 minutes and requires no specialized skills or tools.
- Continuous autocalibration means your system automatically adapts to changes in your room's acoustic profile.
- HDL310 and HDL410 systems are certified for Microsoft® Teams and Zoom and work with your room peripherals.
- Software and services are included — such as management tools, a setup app and developer APIs.

Faculty, staff and students love Nureva

- Instructors can walk around freely as they teach and know they'll always be heard by remote students.
- Comments and questions from students in the room are picked up clearly during class discussions.
- AI agents get the clear audio needed to generate faculty meeting summaries and automated insights.
- Automated camera tracking and switching ensures that remote students always see who is talking.
- Adaptive Voice Amplification (with audience mute) helps students in the room hear clearly.
- USB plug and play systems just work — without annoying delays and distractions.

Key features

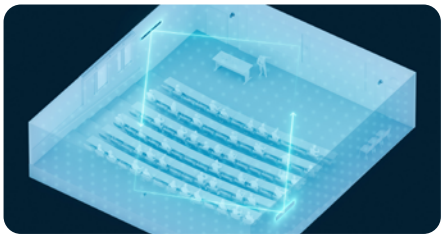

Full solution

Avoid escalating costs with a comprehensive solution. There's no need to purchase software, separate DSPs or other components.

Easy installation

Install a microphone and speaker bar on a wall with just two screws. You won't need to take a room offline or deal with unwelcome surprises in your ceilings.

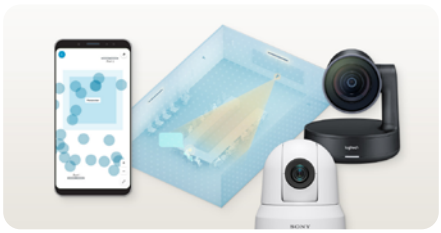

Continuous autocalibration

Make manual calibration a thing of the past. Your system will always be adapting to acoustic changes, even if you adjust your room layout.

Full-room mic pickup

Fill a room with thousands of virtual microphones so there's always one nearby, no matter where people sit, stand, move or face.

Easy camera tracking

Combine our accurate sound location data with your choice of cameras to make automated tracking and switching easy and effective.

Voice amplification

Amplify the instructor's voice in the room without diminishing the remote listening experience. Audience mute is also included.

Software

Included with every HDL system.

- **Nureva® App** — IT-friendly device setup tools, audio settings and one-click updates
- **Nureva Console** — Remote management and intelligent monitoring at scale
- **Nureva Developer Toolkit** — Cloud-based and local APIs plus pre-built integrations
- **Ongoing device updates** — New features added to your audio systems at no extra cost

Warranty and support

Keeping your rooms running smoothly at scale.

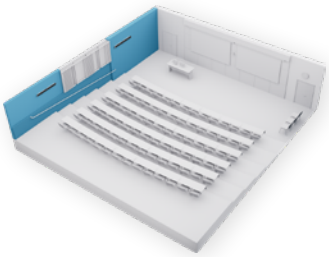

- **Standard 2-year limited warranty** — On your microphone and speaker bar and connect module
- **Extended warranty** — Up to 3 extra years of coverage with purchase of Nureva Pro
- **Live support** — Easy access to knowledgeable experts plus self-serve resources
- **Advance hardware replacement** — Units shipped to you before your units ship back (available with Nureva Pro)

Postsecondary spaces

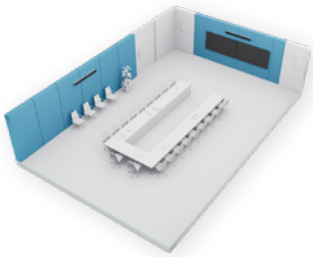

✓ Standard classrooms

Enable instructors to move freely around the classroom as they teach while boosting participation of remote students in discussions.

✓ Large tiered classrooms

Combine camera switching, microphone pickup and in-room voice amplification for effective HyFlex and hybrid classes and lecture capture.

✓ Meeting rooms

Make collaboration feel natural from anywhere with easy systems that pick up voices no matter where people stand, move or face.
