

HDL audio series for meeting spaces

Choose the radically easy large-room audio conferencing option that gives you pro AV performance without a complex setup. You get incredible mic pickup and versatile camera integrations, so collaboration feels natural from anywhere. IT-friendly management tools are included.

Hybrid meetings

- Collaboration is smooth and simple
- Easy to scale across an organization
- Works with AI agents

Town hall meetings

- Distributed team feels connected
- Travel time and costs are reduced
- Easy voice amplification is included

Training sessions

- Training is made fun and engaging
- People can be on-site or remote
- Works well in divisible rooms

AV/IT teams love Nureva

- Two or three components deliver pro AV performance — even in large and extra-large meeting rooms.
- Wall-mounted installation takes as little as 30 minutes and requires no specialized skills or tools.
- Continuous autocalibration means your system automatically adapts to changes in your room's acoustic profile.
- HDL310 and HDL410 systems are certified for Microsoft® Teams and Zoom and work with your room peripherals.
- Software and services are included — such as management tools, a setup app and developer APIs.

Meeting participants love Nureva

- Voices are picked up in every inch of a space — no matter where people sit, stand, move or face.
- Meetings are interactive and engaging, with remote and in-room team members able to collaborate without barriers.
- AI agents get the clear audio needed to generate meeting summaries and automated insights.
- Automated camera tracking and switching ensures that remote participants always see who is talking.
- Adaptive Voice Amplification (with audience mute) helps people in the room hear clearly.
- USB plug and play systems just work — without annoying delays and distractions.

Key features

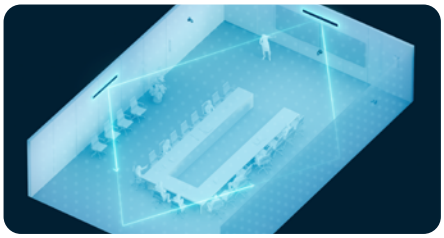

Full solution

Avoid escalating costs with a comprehensive solution. There's no need to purchase software, separate DSPs or other components.

Easy installation

Install a microphone and speaker bar on a wall with just two screws. You won't need to take a room offline or deal with unwelcome surprises in your ceilings.

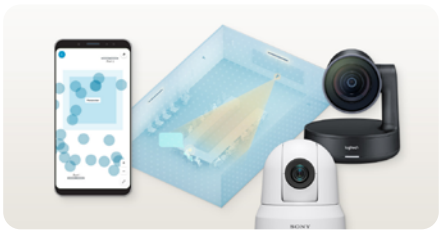

Continuous autocalibration

Make manual calibration a thing of the past. Your system will always be adapting to acoustic changes, even if you adjust your room layout.

Full-room mic pickup

Fill a room with thousands of virtual microphones so there's always one nearby, no matter where people sit, stand, move or face.

Easy camera tracking

Combine our accurate sound location data with your choice of cameras to make automated tracking and switching easy and effective.

Certified for collaboration

Our systems are certified for larger Teams Rooms and Zoom Rooms and work seamlessly with the hardware products you already use.

Software

Included with every HDL system.

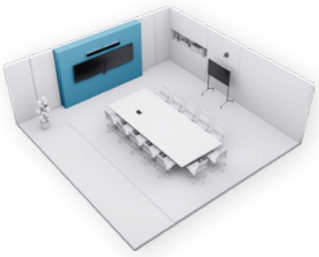

- **Nureva® App** — IT-friendly device setup tools, audio settings and one-click updates
- **Nureva Console** — Remote management and intelligent monitoring at scale
- **Nureva Developer Toolkit** — Cloud-based and local APIs plus pre-built integrations
- **Ongoing device updates** — New features added to your audio systems at no extra cost

Warranty and support

Keeping your rooms running smoothly at scale.

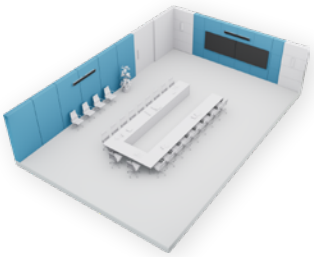

- **Standard 2-year limited warranty** — On your microphone and speaker bar and connect module
- **Extended warranty** — Up to 3 extra years of coverage with purchase of Nureva Pro
- **Live support** — Easy access to knowledgeable experts plus self-serve resources
- **Advance hardware replacement** — Units shipped to you before your units ship back (available with Nureva Pro)

Meeting spaces

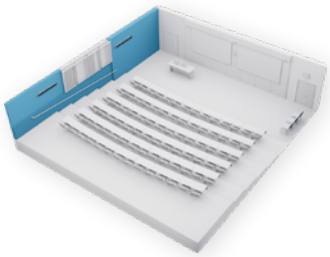

✓ Meeting rooms

Create spaces that help people to connect from anywhere — so you can minimize distractions and focus on getting things done.

✓ High-impact rooms

Engage stakeholders in key conversations and decision-making, whether they're in the room, at another office or elsewhere.

✓ Training rooms

Strengthen skills development in your organization with audio systems that make it easy for team members and outside experts to attend remotely.
