REFERENCE DESIGN

Automated camera switching for large meeting rooms

Get enhanced audio and video conferencing for meeting spaces up to 30' x 30' (9.1 x 9.1 m). Thanks to Nureva's sound location data for automated camera switching and Canon's high-performance auto tracking and best-in-class autofocus technology, remote team members will always have the best view. And with true full-room microphone pickup, they'll also hear every voice clearly.

Solution components

Nureva® HDL310 audio conferencing system

- Microphone and speaker bar providing full-room pickup with thousands of virtual mics
- Next-gen Microphone Mist™ technology producing sound location data for simplified automated camera switching
- Connect module with advanced processing power and pro AV features (no DSP required)
- Easy wall-mounted installation in as little as 30 minutes with no specialized skills needed
- Includes Nureva Console and the Nureva App — intuitive tools that simplify setup and enable device monitoring, management and more
- Available in black (HDL310-B) or white (HDL310-W)
- 2-year warranty (additional 3 years available)
