

Automated camera switching for extra-large spaces

Choose easy and versatile audio and video conferencing solutions for spaces up to 35' x 55' (10.7 x 16.8 m). With Nureva and PTZOptics, you get incredible full-room microphone pickup, sound location data for automated camera switching and high-performance camera tracking. And thanks to regular updates, your products will only get better with time.

Solution components

Nureva® HDL410 audio conferencing system

- Two microphone and speaker bars providing full-room pickup with 16,384 virtual mics
- Next-gen Microphone Mist™ technology producing sound location data for simplified automated camera switching
- Connect module with advanced processing power (no DSP required)
- Easy wall-mounted installation that can take as little as 60 minutes with no specialized skills or tools
- Includes Nureva Console, our device management platform that enables the setting of camera zones, monitoring of devices and more
- Available in black (HDL410-B) or white (HDL410-W)
- 2-year warranty (additional 3 years available)
